

I would like to comment on the Indiana Phone Privacy Act. It needs to be left alone or made harsher for the tele-marketers, I have had more valuable time at home with my family since the privacy act started, I used to receive anywhere from 5 to 10 calls a week. now I only receive maybe two, I vote to make no less than it is now. My privacy is important to me and my family. thank you Scott N. Murnan
